Protective Back Cover for iPad® mini - Teal

K39716EU

Product Description

Your iPad® may be a mini, but the need for protection is just as great. The Kensington Protective Back Cover adds a shock absorbing layer of ultra-thin rubber to the back of your iPad mini to prevent scratches and damage without adding bulk. It also makes it easier to maintain a secure hold of your iPad mini. And that can really help prevent damage from accidental drops. The beauty of the iPad mini is that it's so light and small you'll want to carry it with you everywhere. But first you have to protect it. The Kensington Protective Back Cover has a tactile surface that feels great in your hand and helps it stay in your hand rather than slipping to the floor. And an accidental drop can be bad for your iPad mini—and your heart!

The Kensington Protective Back Cover preserves the things you love about your iPad mini. The form-fitting design adds zero bulk and integrates perfectly with your iPad mini, so it maintains access to all buttons, ports, camera and other features. It also provides more secure contact when sitting on a table or desk, for more stable, safer use in landscape mode. Protect your iPad mini with the Kensington Protective Back Cover—it preserves the iPad mini and all of the things you love about it.

Features

- Works seamlessly with iPad Mini
- Ultra-thin rubber wraps back of iPad Mini to provide protection from bumps and scratches
- Provides a secure grip that's easier to hold and carry
